At the popular Dreamland to-day, "United States Life Saving Drills." Very few people ever think of the United States life savers, except when they read in the papers an account of their heroic work or are brought face to face with practical evidence of the rigorous hardships they are compelled to undergo in their daily routine of duty. Few there are who realize that it is not only in stormy weather that they are busy, but every day, stormy or pleasant—drilling with breeches-buoy, life boat and resuscitation practice, to say nothing of their incessant patrol along the coast, often through snow waist deep. Armed at night with rockets, they are always ready to warn all vessels when they are getting too near the danger point.

An up-to-date comedy from the pen of George Ade should be sufficient to test the capacity of the opera house next Friday night, Sept. 2. It is the consensus of opinion of the press throughout the country that Ade's latest concoction, "Just Out of College," is as good as a feast and is marked by the well-known characteristics of Ade humor. When we recall "The College Widow," "Peggy from Paris" and "The County Chairman" from the same author, we are justified in looking forward to an enjoyable performance. A clean-cut, original comedy with musical frills added.
